Are the bounce houses safe?

Our bounce houses are commercial quality inflatables. Our products are made with 18oz heavy-duty fire resistant vinyl which is safe and durable. We promote the fun and safe use of our rental equipment. At the time of delivery or pick-up we will discuss all the safety guidelines that are related to the proper use of our equipment. We are always available after the time of pick-up or delivery in case you may have any questions or concerns.

Is the rental equipment clean?

Absolutely. All Primetime Party Zone rental equipment is thoroughly cleaned between each use. We are committed to making sure that your children have a clean, healthy, and safe environment in which to play. In addition to cleaning, we also safety check and troubleshoot all equipment before it goes out to another client. This way you are always guaranteed a unit that is safe, clean and in good working order.

Does it need electricity?

Yes. We will bring a 50 or 100 foot extension cord with us. So you must have an outlet close enough to the setup area. The unit must be setup within 100 feet of an electrical outlet. We don't encourage setups near swimming pools and if we do there must be constant adult supervision.

What happens if it rains?

Our policy is once we have set up a bounce house, payment is expected. If it rains during the day or during your event, discounts or refunds will not be permitted. Massachusetts weather is unpredictable and we do reserve the right to cancel if we feel the weather will not be suitable for the bounce house.

The bounce house must be deflated if winds exceed 25mph and if there is steady or heavy rain or lightning conditions. Our delivery personnel will show you how to turn off the bounce house blower and remove it. We ask that you please bring the blower and electrical cord under cover or inside so that they do not get damaged by the elements.

The bounce houses can get wet, however for safety reasons, we ask that children not be allowed in the bounce houses wet because they tend to get slippery and cause a safety hazard for all the children playing.
